Thesis presentation | Cycle XXXI
September 11th, 2018 | room Benvenuti

10:30 | Thi Huong Phan

Spatial Survival Models for Analysis of Exocytotic Events on Human beta-cells Recorded by TIRF Imaging

Supervisor prof. G. Cortese

_____

11:30 | Grzegorz M. Kotkowski

Advanced Statistical Methods for Data Analysis in Particle Physics

Supervisor prof. G. Menardi

_____

12:30 | Margherita Silan

Propensity Score Techniques in Multiple Treatments Framework: the Estimation of Neighbourhood Effect

Supervisor prof. G. Boccuzzo

_____

14:30 | Charlotte Taglioni

Bayesian Hierarchical Modelling for Population Size Estimation: Application to Italian Data

Supervisor prof. B. Liseo

_____

15:30 | Mohammad Salim Zahangir

Competition and Substitution in Energy: Old Scenarios and Emerging Technologies

Supervisor prof. C. Mortarino
