

High frequencies time series for Europe

A seminar by Dario Buono

Team Leader of Methodology at Eurostat

30 April 2021 | 2:30 p.m.

Live Facebook @scienze statistiche unipd

Eurostat produces European statistics in partnership with National Statistical Institutes and other national authorities in the EU Member States. This partnership is known as the European Statistical System (ESS). It also includes the statistical authorities of the European Economic Area (EEA) countries and Switzerland.

Eurostat is a general directorate of the European Commission and serves as the Statistical Office of the European Union and is also. Its main objective is to provide high quality statistics for Europe. These are also referred to as Official Statistics. Their quality has many dimensions among which: timeliness, punctuality, frequency (etc).

Do you want to know more about it? Are you wondering about the importance of time series analysis for the data production? why do we do seasonal adjustment? How high are high frequency statistics? To learn more follow the seminar by Dario Buono, Team Leader of Methodology at Eurostat.
